

The group gathered at the oead housing at 8:15 am and took there way to the Metro station to go to BKOUniversity , to start there first day of the project work with some excitement , the group reached the university at 9 am and start gathering together in groups with different table layouts and started brainstorming and discussing the main ideas and the goals that they need to achieve , using some sketches or written ideas and some using software's .

At 12 o'clock it was lunch time , the group continued there work from 1 pm until 2 pm then each group presented there main ideas and goals briefly , to the rest of the groups and had some discussion about there ideas , maybe to re-think about some points or maybe to continue with the same concept.

The project work all day was under supervision of the tutors and Prof K.Stieldorf And Prof. G.Reinberg , then the participants completed there work until 5 pm , then went back to there dormitory .
